Treasurer,  
XIV ASC

October 04, 2018

Dear Sir/Madam,

Greetings from Organizing Committee of XIV ASC-2019!

With immense pleasure, I would like to inform you that the National Academy of Agricultural Sciences (NAAS) in collaboration with the ICAR-Indian Agricultural Research Institute, New Delhi is organizing XIV Agricultural Science Congress at NASC Complex and IARI Campus during February 20-23, 2019 on the theme "Innovations for Agricultural Transformation". The event will include technical sessions, plenary sessions, public lectures, farmers' sessions, poster presentations, inter-university student elocution contest, panel discussions and number of satellite meetings.

A large number of participants cutting across the disciplines of researchers, faculty, policy makers, farmers, entrepreneurs, development departments, corporate and private sector leaders, NGOs and students shall be attending this biennial Congress. Scientists from all over the country as well as from abroad are invited as speakers. We expect more than 2000 delegates to participate in the Congress.

Moreover, AgriTech-2019 exhibition will be a major attraction in this Congress, where various private and public sector organizations in the field of agriculture will be showcasing their newly developed technologies.

In order to provide wider publicity to this mega event, we have prepared a poster depicting the salient features of the Congress. I request you to kindly circulate the poster in different Departments and Sections of your Institute so that the scientific and student fraternity of your esteemed institution stand informed about the event. We would also like to request you to kindly encourage Scientists, Research Scholars and Students of your Institute to submit abstract online and participate in large number to make this even a great success. The details of the Congress can be seen at <http://14agricongress2019.in>.

Thanking you and with best regards,

Yours Sincerely,

  
(A. K. Singh)
